PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 8 months of production experience building cross-platform mobile and web applications at Siris Apps. Proficient in Flutter, React, Next.js, TypeScript, Firebase, and Supabase. Delivered end-to-end features across 4 live products — authentication workflows, booking systems, QR ticketing, multi-tenant access control, and real-time integrations. Pursuing B.Tech in Computer Science (2026, CGPA 7.5).

TECHNICAL SKILLS

Mobile / Frontend:	Flutter, Dart, React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend & Services:	Firebase (Auth, Firestore, Storage), Supabase, Prisma ORM, REST APIs
Database:	MySQL, PostgreSQL, SQL (DDL, DML, Joins, Aggregations)
Auth & Security:	Session-based Auth, SHA-256 Hashing, Role-Based Access Control (RBAC), Firebase Auth
Tools & Practices:	Git, GitHub, VS Code, Chrome DevTools, Responsive Design, Testing & QA

PROFESSIONAL EXPERIENCE

Full Stack Developer — Siris Apps, Hyderabad

Jan 2024 – Present

- Built authentication, onboarding, booking workflows, and QR-based ticket generation across 4 production apps (Campout, GateFlow, Kidjar).
- Engineered multi-tenant role-based access control (Admin/Staff/Student/Security) with SHA-256 session tokens and org-scoped sign-up for GateFlow.
- Implemented concurrent slot-locking via Firestore transactions; real-time data sync using onSnapshot() and Supabase PostgreSQL with RLS policies.
- Integrated geolocation and Maps API for location-aware campsite discovery and navigation in Campout.
- Delivered responsive, pixel-perfect UIs from Figma designs using Flutter widgets and React/Tailwind CSS components.
- Conducted systematic testing, regression QA, and bug triage; participated in sprint planning and product roadmap discussions.

KEY PROJECTS

Campout — Outdoor Booking Platform

Flutter · Firebase · Supabase · Maps API

- Full user journey: auth → onboarding → campsite search → booking → QR ticket → verified check-in.
- Concurrent booking conflicts handled via Firestore transactions; Maps API for location discovery.

GateFlow — Multi-Tenant Visitor & Gate Pass Platform

Next.js · Prisma · Supabase · PostgreSQL

- Built multi-tenant visitor management platform supporting colleges, hospitals, offices, and hotels with dynamic role-based UI (Admin/Staff/Student/Security).
- Implemented custom session auth with SHA-256 hashed tokens, org-scoped signup, and a Smart Pass system with real-time staff approval workflow and pass history tracking.

TechTrack — Gamified Learning Platform

Flutter · Dart · Firebase

- Roadmap-based level-unlocked learning with XP, badges, and real-time Firestore progress sync.

College Management System

HTML · CSS · JS · MySQL · Python · Power BI

- Full-stack web app with normalized MySQL schema, CRUD via SQL/Python, and Power BI analytics dashboards.

EDUCATION

B.Tech — Computer Science & Engineering | Bheema Institute of Technology & Science

2022 – 2026 | CGPA: 7.5
